

PART OF TERRIER 7 ~~JANBEEBIE VUE~~ apparently in George Grimshaw's hand)

The rate for the reparacon of our Church is one bushellof oats, one peache of barlie, one peache of wheat, for every farthing of land yeerely, lying within the Parish

There was left by the predicessors of the present Incumbent in the parsonage, one old table board, and one Stoney Trought to receive the water from the spoute.

The bonds of our parish southwards lieth against the commons of Bigburie and is devided by a brookethat runneth from a place called Cockhole, from thence Northeast to Waddell yeats, and so bending upon Bigburie untill the utmost corner of Seavon-Stones downe, and from thence northwards to a close of land called Gaberwill, wherein is a landscover, the east part of whiche close belonged to Ridmore, the westernmost bond is one Muchermores meddow, and the parishe upon that side devided from Kingston by a brooke that runneth to Wiscombe, the whole scope of our parishe is by estimate one thousand ackers of land.
