Subject Rocky Path	Measurements (Sketch with scale overleaf if possible)		
Description , history, field notes and other information. (Please fill in a separate sheet for each separate item) Rocky Path is a narrow lane, which runs steeply up the hill from the Journey's End Inn for about 200m . It connects with the bridle path to Ayrmer Cove. Until the 1960's, its surface was unmetalled and consisted of natural rock, with grooves cut across to give a foothold. It was used by villagers to carry water from the Town Well, at the foot of the hill.		Reference for each piece of information	Date of each entry 1991
